

## **Sodium Alginate Instructions**

For a thick screen printing paste:

Use 5 tbsp alginate / 1L water

For mixing alginate with Procion H dye:

Use 2-3 tbsp alginate / 1L straight dye

For use as a stock thickener:

Use 1 tbsp alginate / 1 cup water

- 1) Fill a mixing bowl with warm water.
- 2) Sprinkle alginate evenly over surface and let sit for a few hours.
- 3) Mix on medium speed with a hand mixer
